

## **Volunteer Opportunities**

### **Trail creation, enhancement, and maintenance**

### **Fish Rearing Operations**

Marking fish for stocking (fin clipping), stocking fish in the western UP, and care of all life stages from egg to adult.

### **Plant Program**

Care of nursery plants, seed orchards and fields, and restoration sites. Invasive plant monitoring and removal. Pollinator monitoring and home building. Wild rice monitoring and restoration.

### **Wildlife Program**

Wolf tracking. Waterfowl surveying and wood duck box checks. Environmental surveys- frog and toad index and macroinvertebrate sampling.

**Opportunities are seasonal and advance inquiries are appreciated.**

Your volunteering contributes to the success of these Programs. It is also an opportunity to learn more about specific work in various fields and is a great way to build your resume. Please contact us if you are interested in these or other possibilities.
