

Free Mashkodewashk

*To plant in your garden
and use for smudging*

Beautiful White Sage Plants

**Artemisia ludoviciana **

This spring the KBIC Natural Resources Department has grown many Mashkodewashk plants from seed.

We have six-packs of these precious plants to give to our community members.

Plant them in a sunny place in your garden. Give them a little care and they will return year after year.

In late summer you can harvest the leaves / stems to make your own smudge bundles.

**“The Plant Nation
works many
wonders”**

Please call 906-337-2079 to arrange to pick up your white sage plants at the KBIC-NRD greenhouse.
